Hanover, NH 03755

Subject: **Hanover** – Dartmouth College Rennie Farm Site, Hanover Center Road
DES Site **#201111109**, Project #27737

Remedial Design Monitoring Well Data Summary, as prepared by GZA GeoEnvironmental (GZA), dated November 23, 2016

Dear Mr. Cimis:

The Department of Environmental Services (Department) has reviewed the referenced submittal for the Dartmouth College Rennie Farm site in Hanover, as recently submitted to the Department by your environmental consultants, GZA. Based on our review, the Department approves the proposed specifications for the bedrock groundwater extraction wells to be installed proximate to the on-site source area, as per the Remedial Action Plan (RAP) previously approved by the Department. We understand that additional supporting information (e.g., boring logs and laboratory analytical data reports) will be included with the upcoming Groundwater Management Permit application.

Should you have any questions, please contact me at the Department's Waste Management Division.

Sincerely,

Waste Management Division
