

# Be Bear Smart!

A FREE indoor workshop sponsored by the Hanover Conservancy, USDA, NH Fish & Game and the Hanover Conservation Commission

Black bears have occupied Hanover, even today's downtown, since the glacier left. While it can be exciting to spot them in the wild, having bears visit your trash cans and bird feeders is another thing altogether.

Share your experiences and get tips from state & federal bear experts on how to live safely & happily alongside these often misunderstood animals.

**Speakers: Andy Timmins, Bear Project Leader**  
New Hampshire Fish & Game Department

**Nancy Comeau, Bear Technician**  
New Hampshire Bear Program, USDA Wildlife Services

**7-9 p.m. Monday, January 23<sup>rd</sup>**  
**Howe Library's Mayer Room, Hanover**
