Applicant hereby certifies and acknowledges that: (1) This application has been completed in accordance with Hanover Site Plan Regulations. (2) All information on the Submission Requirements Checklist is provided or requested waiver(s) indicated. (3) Payment of all requisite fees is provided in accord with the Town's adopted Rate & Fee Schedule. (4) The Planning Board may require the payment of additional fees as described in Article VIII.A.1.d, and the applicant hereby agrees to pay such fees. (5) If the site plan subject to this application is approved, the project shall, prior to the filing of an application for a Certificate of Compliance, be fully carried out in substantial conformity to the approved plans, approval conditions, and the applicant's representations at public hearing.

Authorization to Enter Subject Property Members of the Hanover Planning Board, Planning & Zoning Department, and other pertinent Town Departments and boards are hereby authorized to enter these properties for the purpose of evaluating this application. It is understood that these individuals must use all reasonable care, courtesy, and diligence when on the property.

Property Owner / Applicant with letter of owner's authorization attached

Date

Pursuant to RSA 674:43 & 676:4 II, site plan review shall be subject to up to three phases of review by the Planning Board:

- a. Informal Discussion** (Preliminary Conceptual Consultation Phase): directed at reviewing the basic concept of the proposed project, whether design review is required, & suggestions that might be of assistance in resolving problems with meeting requirements during final plan review.
- b. Design Review:** provides a full understanding of the site’s potential, to carefully evaluate natural constraints, aesthetic concerns & development options, to identify & consider concerns of the neighbors, to identify any municipal infrastructure limitations, & to facilitate effective exchange with the Planning Board. Design Review is required and must be completed prior to submission of an application to the Zoning Board of Adjustment for any project requiring site plan approval or special exception/administrative permit under Section 1103 of the Zoning Ordinance.
- c. Final Plan Review:** consists of determination of the completeness of the application, a public hearing, deliberation by the Board on the merits of the project, and Board action to approve or disapprove the request. In addition to describing the project and its potential impacts, the applicant shall explain the design process used to develop the final site plan.

Use of This Form This application is to be used to apply to the Planning Board (“Board”) for review of proposed major projects, as defined in Article VI.D of the Hanover Site Plan Regulations in effect as of September 28, 2010.

Additional Information If, during review of the application, the Board determines that additional information is necessary or desirable, the Board shall so inform the applicant, and the applicant shall supply such information within the timeframe agreed between the Board and the applicant.

Staff Evaluation Prior to submission [to the Board] of an application for Design Review and, if deemed necessary by the Board, also prior to submission of an application [to the Board] for Final Plan Review, the applicant shall meet with town staff to discuss the project and impacts.

Site Visit The applicant may be required to arrange for one or more site visits to the property with the Board. The purpose of the visit is to familiarize Board members with the property’s existing conditions and special features, to identify potential site design issues, and provide an opportunity to discuss site plan concepts, the layout of the open space, and locations for proposed buildings and road alignments.

Security for Work to Be Performed The applicant may be required to submit security to the Town to secure the completion of the actual construction and installation of all improvements and utilities within 3 years from the date of the Notice of Action or as a condition of the issuance of a Certificate of Compliance, for work which cannot be completed because of the time of the year.
