

# Sustainable Hanover Weatherization Contractors List

*The following contractors frequently serve the Hanover region, maintain current certification from the national Building Performance Institute (BPI), and participate in the NHSaves rebate program, which conducts regular quality assurance checks on all its contractors. Each has agreed to be listed as part of Weatherize Hanover 2020.*

*If you participate in the NHSaves weatherization rebate program, NHSaves will automatically assign you to one of these contractors (or another qualified contractor) based on availability.*

## **Build Basic Green**

Lebanon, NH  
Founded in 2011  
BPI since 2011

Build Basic Green is a full service energy assessment and construction company, with offices in New Hampshire and Vermont. The principal, Bruce Merritt, has 33 years of experience building, assessing, and installing high performance energy efficient upgrades, focusing on renovations, remodels, additions and deep energy retrofits. Design services available.

## **Earthshare Construction**

Lebanon, NH  
Founded in 2011  
BPI since 2015

Earthshare Construction is a full service Green General Contractor. In addition to weatherization projects in both VT and NH, we also do new High Performance homes, additions, renovations, and remodeling. Our knowledge of home performance and building science allows us to deliver beautiful, comfortable, efficient and durable projects.

## **Quality Insulation**

Meredith, NH  
Founded in 1980s  
BPI since 2012

Quality Insulation of Meredith is a local branch of the nationwide company TruTeam. This gives us the ability to have strong local relationships with a corporate backing. We specialize in insulation and weatherization work with BPI-certified auditors and experienced installers. We can help you start to finish with your weatherization project.

## **Yankee Thermal Imaging**

Rochester, NH  
Founded in 2008  
BPI since 2012

YTI is a full-service energy auditing, insulation, and air sealing company specializing in both new and retrofit, residential and commercial, energy savings projects. We work in the NHSaves and Efficiency Maine programs and outside of it. We have been successfully involved in several "weatherization campaigns" already, and we look forward to serving homeowners in another!
